Driving License: Yes   Portfolio: http://jamieneill.co.uk/

Education:

2017-2021 **BEng (Hons.) Computer Games Development, Ulster University**
Expected Degree Classification: 1st Class Honours.

Average mark for year 1: 82%
Average mark for year 2: 81%

Year 1 Modules	Mark	Year 2 Modules	Mark
Programming I	95%	Object Oriented Programming	100%
Mathematics for Engineering I	70%	Mathematics for Engineering II	96%
Introduction to Computer Games	64%	UX	75%
Semester 2		Professional Issues	69%
		Semester 2	
Programming 2	95%	Games Graphics Programming	79%
Computer Hardware & Organization	93%	Multimedia Games Development	66%
Games Design	73%	Algorithms and Data Structures	83%

2010-2017 **Loreto College, Coleraine**
A Level: Physics and Software Systems Development at grade B
GCSE: 9 Subjects grades A-C

Experience

September 2019 – Present, Placement Student, Northern Ireland Civil Service
- Triage support requests.
- Remotely install software for users.
- Develop a web app, full stack, to handle travel requests in MVC 5.
- Configure IIS running on virtual servers to maintain web app functionality.
- Implemented small changes to a large codebase application written by another developer.

June 2018 – March 2020, COACH, IM HAPPY Project, Ulster University, Coleraine
- Deliver Ulster University accredited modules to the public.
- Work with local authorities on web projects.
- Write modules for Ulster University & the project to deliver.
- Take lead on App Development SEC workshops at the Magee campus.

June 2016 - April 2018, Team Member, KFC Coleraine
- Taking Customer orders in store and at Drive-Thru
- Maintaining stock records

- Cooking
- Handling Cash
- Preparing Orders
- Cleaning the restaurant.

Skills

- Programming: I am proficient in industry standard programming languages including C++, C#, Java, HTML, CSS & JavaScript as well as source control solutions like GitHub.

- Teamwork: Drawing from experience in previous jobs and through group projects at university, my interpersonal and teamwork skills are of high standard and I am comfortable working in team settings.

- Leadership: I have developed my leadership abilities through my work with the IM HAPPY project as I am a lead coach for various modules including Web Development and App Development.

- Problem Solving: Through studying and developing my programming skills, I have in turn enhanced my problem-solving abilities and techniques to produce outcomes for tasks and challenges.

- Communication: This is a skill that I am continuously enhancing through giving presentations for games pitches and IM HAPPY classes as well as consulting with GitHub staff and interacting with group members when completing project work.

Interests and Achievements

- Technology: Soldering, Circuit design, PCB design, Phone Repair and Electronics prototyping.
- Karate: Achieved 1st Dan Black Belt in 2015, second place in kumite in Northern Ireland Karate Board 2015 Championship. Coach for adult and children's classes.
- Badminton
- Snooker and Pool
- Close-Up Magic: Worked as a freelance magician for hire in Northern Ireland for weddings, birthday parties and other events.
- Interested in Virtual Reality Technology, especially in serious games alongside Brain-computer interfacing & Augmented Reality Technology
